Professional Summary

- I am a MERN Stack Developer with hands-on experience in building national-scale dashboards and data-driven platforms. My expertise lies in React, Node.js, and MongoDB, where I focus on performance optimization and delivering clean UI/UX. Through my project involvement, I have demonstrated the ability to enhance user engagement and improve application functionality, contributing positively to team objectives.

Education

Indira Gandhi National Open University

2020 – 2024

B.Sc. General

Delhi

Experience

Govardhan Learning Cloud

Nov 2024 – Present

Full Stack Developer

Full Time

- Worked with **HTML, CSS, JavaScript, React.js, Tailwind CSS, and Node.js**, gained full-stack development experience.
- Built, enhanced, and maintained responsive and dynamic web applications with a focus on clean UI and efficient backend API integration.

Projects

National Disaster Management Authority (NDMA) | **HTML, CSS, JS, React.js, Tailwind CSS, Node.js, Express** **2025**

- Designed multi-level dashboards (State → District → Block → School) with filters to track school safety drills.
- Implemented a UDISE-based school form where entering a code auto-prefills school data from the database.
- Engineered a role-based member assignment module to manage state/district administrators.
- Created a school submission form that updates the dashboard in real time.
- Enabled NDMA to monitor compliance, compare performance, and improve disaster preparedness.
- Automated email notifications with certificate generation for schools upon successful drill completion.

Yuvamanthan | **HTML, CSS, JavaScript, React, Node.js, Express, MongoDB**

2025

- Enhanced UI/UX for CAQM and Pledge Build, boosting user engagement by 20%.
- Developed APIs for efficient CSV data validation, processing over 10,000 records.
- Built a real-time chat module with message tracking, accelerating internal communication.
- Delivered full-stack features, strengthening expertise in both frontend and backend development.

Technical Skills

Languages: JavaScript, TypeScript, HTML5, CSS3

Frameworks: React.js, Next.js, Redux Toolkit, Tailwind CSS, Node.js, Express.js

Database: MongoDB

Tools: Git, GitHub, REST APIs, Postman, Vercel, Netlify

Achievements

- Full Stack Developer, Code Help, August 2024
